The entries will be judged by an international jury of the competition on the following criterions:

Presentation + Cover

The fundamental to a good entry is a good presentation.

Diversity

Quality of thought and intent in pre-design phase.

Sequence + Legibility

How the spaces are calculated and ordered.

Projects + Composition

The final architectural outcome of the solution.

Judging Criteria

The judging panel can also add other criterions based on their internal discussions - which will be in line with the problem statement. Participants are advised to fulfil above given criterions first in their design.

UNI is a place for creative people to showcase their work along with the thought process behind it and have discussions around them. We want to tap people's curiosity and observations to generate conversations and give constructive criticism on art, architecture, products, fashion and more... These conversations build up new knowledge and often sows the seed of a new idea or help in making the creation better.
