

FUSION

Inventing Typologies.

#Event / #mixeduse / #landuse / #typology / #innovate / #invent + Architecture = Design Awards.

FUSION

Manifesto

As designing and architecture leap forward with changing times, land constraints and it's high demands due to limited resource grow even more with the growing population. An optimized utilization of land with more than one purpose has given birth to mixed form of its use. Through centuries, things which have remained unchanged is, architecture's ingenuity to make it happen. In today's time when all places are assumed to house everything in one place it marks the beginning of an age when design would change this movement and create new dimensions.

Designing has the power to mould functions of a place and make it capable of delivering all at once. We mark this advent of creating spaces like these that will define new dimensions in land use and function of a building/space . **Fusion** will be a sprint award where we honor projects which bent the use of architecture as a tool to merge diverse uses and giving birth to spaces that are entirely new.

Fusion aims to spread awareness about these small yet powerful innovations that makes architecture possible and the efforts of designers who make them. **Fusion** is a part of A4A ([A for Architecture](#) '20 Awards).

The submission will look more at innovative typologies clubbed together to make new ones explained through photographs, detail sketches, process, detail in drawing, and its overall contribution to architecture at large. The following categories are invited to participate in this Awards programme.

Housing	Transit	Apartment	Cinema
Church	Factory	Industrial	Shopping
Restaurant	Garage	Retail	Hospital
Hostel	Hotel	School	Kindergarten
College	Library	Mall	Office
Post Office	Theatre	Amphitheatre	Workshop
Museum	Gallery	Show room	Others

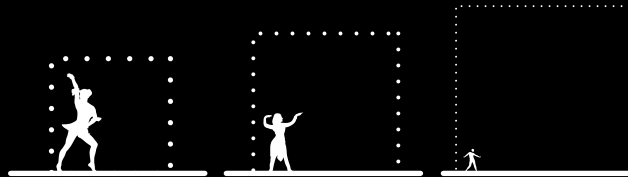

Use these tags to upload your project

1

The project should exhibit more than two different typologies in its design.

Fusion

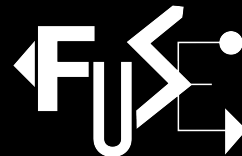

2

Project is in one of the following scale best suited

Small

Medium

Large

3

&

4

Fusion

Eg. Medium

Typology A

Typology B

Make your first tag as Fusion, the second tag as scale and 3rd & 4th tag are your typologies. If your building has more than two typologies, pick the two most evident ones.

Submit

All the requirements to submit an eligible entry.

FUSION

Featured: Gensler ([Link](#))

1 Cover image – 6 (Min) - 12 (Max) images describing the project.

Answer any 6 from the given questions in about **150-200 Words**.

The diagram shows the format for the questions and answers. It features a dashed box containing a 'Q:' field with a question mark icon and an 'A:' field with three horizontal bars representing text input. To the right of the dashed box is a large 'x 6' indicating that there are six such questions to answer.

Begin uploading with the discipline tag as **Architecture**:

In the project page. Add 3 tag (Categorical) based on your project in project page tag:

The diagram shows the tags for the submission. It consists of a row of buttons: 'Fusion', a plus sign, 'Small', 'or', 'Medium', 'or', and 'Large'. Below this row is another row: a plus sign, 'Library', and 'Office'.

That's It!
